ANNIE’S HOUSE:
Annie’s House at Bottineau Winter Park is a year round adaptive recreational facility, located in North Dakota’s scenic Turtle Mountains. Built to honor Ann Nicole Nelson, a Stanley, ND native who perished in the 9/11 attacks, this facility is an inclusive place for family and friends to enjoy all Bottineau has to offer. Since 2013, Anne Carlsen Center and Bottineau Winter Park have been working together to nurture abilities and change lives, through outdoor adventure! Annie’s House offers year round adaptive recreation programs such as skiing, hiking, fishing, and tubing.

i CAN BIKE:
The Anne Carlsen Center partners with the national charitable nonprofit organization iCan Shine to create a five-day program to assist riders with disabilities learn how to bike. Camps will be hosted in a variety of locations around North Dakota to teach individuals with disabilities how to ride a conventional two wheel bike.

Riders attend the same 75-minute session each day for five consecutive days (M – F) where they are physically assisted and encouraged by two volunteer “spotters.” Over the course of the 5-day camp the adapted bike is adjusted to gradually introduce more instability in an effort to challenge riders at their own individual pace. The week is concluded with a touching and inspiring award ceremony!

ADAPTIVE SWIMMING:
The Anne Carlsen Center REAL program and the Therapy team in Jamestown have partnered with Safe Kids and several major aquatics facilities to make adapted swimming lessons available for people with all types of disabilities. This day and a half long course provides both classroom education and in-water training on how to work with special needs individuals in an aquatic environment.

GAMEON AUTISM GOLF PROGRAM:
The GameOn Autism Golf Program is designed to develop life skills, encourage social interaction, build confidence and promote healthy living through golf for individuals on the autism spectrum. Trained volunteers spend 90 minutes with the children and get them all stretched out, explain the rules, show them how to use the golf clubs, hit the golf ball and then let them have fun.

VSA:
VSA North Dakota arts classes are inclusive. This ensures that students with disabilities, or who are at risk for socio-economic reasons, and students without disabilities participate at the same time and in the same classes.
LEKOTEK:
The Lekotek by Anne Carlsen offers therapeutic PLAY-based family sessions for families of children with disabilities structured to help children learn, develop and thrive in a world that presents them with many unique and complex challenges. Play is the way kids learn, develop skills and reach milestones. The mission of Lekotek by Anne Carlsen is to make the world of play accessible to ALL children, especially those who have disabilities or special needs. Toys and play empower children to reach their potential and increase inclusion within the family and community.

ASSISTIVE TECHNOLOGY:
Adaptive equipment and assistive devices open up a new world and help people with disabilities gain more independence in their environment. An on-site technician designs and builds custom equipment like switches and environmental controls to provide children greater independence with daily living activities, leisure time, communication and sensory stimulation.

TECHNOCAMP:
TechnoCamp is a one week camp held each year at Elks Camp Grassick along the shores of Lake Isabel near Dawson, North Dakota. Campers experience the excitement and thrill of summer camp through the help of adaptive technology. Through the latest technologies, campers further develop a variety of life skills mixed with functional learning activities.

Annie Carlsen Center
Nurturing abilities and changing lives for seventy-five years.

The Anne Carlsen Center offers 75 years of rich tradition of educational, residential, recreational, therapeutic, evaluation, and community-based services. Our individualized services include care for over 3,000 individuals — and families — of all ages with developmental disabilities or delays.
